TREVI
Marble Collection

Trevi nasce dal richiamo per uno dei marmi più utilizzati in architettura, grazie alla sua grande resistenza e abbondanza di reperibilità. La marcata venatura che corre longitudinale ottenuta tagliando i blocchi di marmo in falda e la puntinatura chiara delle stuccature ne fanno un concentrato di classicità senza tempo, pregno di memorie e di richiami.

Trevi was born from one of the most used marbles in architecture, thanks to its great resistance and abundance of availability. The distinct longitudinal veining obtained by veincutting the blocks of marble and the light pitting of the grout lines give it a concentrated and timeless classical style, full of memories and evocative references.
